

## **Case Mailing Information re: Bullets Removed (WO 5605) [Outside Users]**

Users access the Case Mailing Information option in ECF to prepare certificates of service. A list of parties and attorneys who receive electronic notices is displayed, and users cut-and-paste that list to their certificate of service. The bullets, which precede each name, caused problems with the cut-and-paste process and have been removed from the screen.

## **Notice of Abuse Event (WO 3978) [Court Users]**

A Notice of Abuse is generated when the debtor files their means test document (B22A) after the 341 notice has been issued and changes their abuse status from no to yes. If that generated notice is lost for some reason, it is difficult to recreate the notice. A new Notice of Abuse event has been set up for use in this scenario.
