

Docket Report Error re: View Multiple Documents (WO 5620) [All Users]

Users have the option to select multiple documents to view as one PDF file. The PDF file created from multiple documents displayed blank pages after the first initial pages. The problem has been resolved and users can now view multiple documents in one PDF with no problems.

Motion for Order of Contempt Pursuant to FRBP 9020 (WO 5770) [All Users]

This event was renamed from Motion for Contempt to Motion for Order of Contempt Pursuant to Fed.R.Bankr.P. 9020 to better match the language in the Rule. The Contempt Order event has been revamped to give case managers multiple options from which to select the proper docket text. The order has been moved to the Other Orders menu.

Cash Register Update (WO 5580) [Court Users]

The cash register program will be updated to the latest version – CR/ECF Ver. 5.0.6. Cashiers shouldn't see any difference during the receipt process, but should scrutinize receipts for the first few days to ensure receipts are correct. Also, if the ringout doesn't happen until the following day, contact Systems so file date can be updated.

Validating PDF Files (WO 5780) [Court Users]

The program that validates and stamps PDF files will be updated to the latest version – iText Ver. 5.4.2.

Processing PDF Files (WO 5840) [Court Users]

The program that verifies PDF files will be updated to the latest version – PDFBox Ver. 1.8.2.
