

Mailing Information for a Case (WO 5632) [All Users]

An option to sort case mailing information is now available. From the Utilities>Mailings>Mailing Information for a Case>List of Creditors option, users may sort the raw data text file so that parties and attorneys are listed at the top of the file above the creditors.

View All Button re: Bug Fix (WO 5882) [All Users]

When a docket entry has multiple documents attached, viewers can select a View All button to see all the documents in one PDF file. A problem with the PdfWriter program caused some PDF files to appear blank. The program has been updated, and PDF files created with the View All button are no longer showing up blank.

Report of Settlement re: Chapter 13 Cases (WO 5884) [Chapter 13 Trustees]

The Report of Settlement and Notice of Failure to Abide by Settlement events have been restricted to New Albany chapter 13 cases. New Albany is the only division using the consultation requirement and settlement process to resolve trustees' motions to dismiss.

Local Form Sent to BNC in Error (WO 5778) [Court Users]

The Plan Notice is a local form, but it was sent to the BNC in error causing a BNC Exception Report to be generated. It was determined that users were accidentally selecting the "Generate BNC batch form" radio button from Generate Notices instead of the "Print local with labels" option. Since the batch form radio button is not used, it was removed from the screen to prevent future errors.

Phone Number Notice re: Pro Se Debtors (WO 5824) [Court Users]

When an order granting the withdrawal of a debtor's attorney is entered, users are instructed to issue the notice requesting a phone number if the debtor is now pro se. (CRDs have a direct link to the phone number notice event, while case managers must select the event from the Court Events>Notices menu.) The Phone Number Notice event has been updated to stop users if the debtor is not pro se to prevent issuing the notice in error.

Upgrade to vCal 8.0.0 (WO 5834) [Courtroom Services, Chambers]

The vCal calendaring program will be updated to Ver. 8.0.0.
