

Exhibit for Hearing and Exhibit List Events (WO 5907) [All Users]

The Exhibit for Hearing event has been restricted to New Albany cases as the event should only be used when a New Albany case has been scheduled for an electronic hearing. The Exhibit List event has been updated to display a question concerning electronic hearings for New Albany cases only.

Income and Expense Statement Event (WO 5886) [All Users]

This event was originally set up for use by non-individual debtors, but individual debtors sometimes need to file this statement per instructions from the trustee. The event was updated to remove reference to non-individual debtors.

Objection to Claim Event re: Docket Text (WO 5872) [All Users]

The docket text for the Objection to Claim event has been updated to only add the related claim number. The claimant name is no longer added to docket text.

SUMMONS Flag (WO 5852) [Court Users]

A new SUMMONS flag to remind case managers to issue the answer-only summons will be set when a new complaint or a request for alias summons is filed. The SUMMONS flag is auto-removed when a summons or alias summons is issued. The flag is not set on Judge Lorch cases as his chambers issues telephonic conference summons.

Returned Mail Event (WO 5885) [Court Users]

This event has been updated to allow users to select whether returned mail was received from the BNC or the Post Office, and that information is added to docket text. Users must also relate the event to the original notice or order that was issued.

Copy Case re: QCed Claims (WO 5891) [Court Users]

Claims that were QCed in the original case showed up as not QCed in new split/transfer cases. The Copy Case program has been updated and any QCed claims now are copied correctly to the split/transfer case.

Canceled Notices re: Deadlines (WO 5909) [Court Users]

When a notice is canceled, any deadline created from the notice event is auto-terminated. Recently, a problem was found where two deadlines were set in one event and only one of the deadlines should have been terminated when the notice was canceled. The program has been updated and there's now an option to allow certain deadlines to remain pending when a notice is canceled.

Split Cases re: Debtor's Attorney (WO 5934) [Court Users]

When a joint case is no longer going to be jointly administered, the debtor who will be assigned a new case number is terminated on the original case. That debtor's attorney is also terminated. Creating the new case through Copy Case should underterminate both the debtor and their attorney automatically, but a problem was found where the attorney was not unterminated. The program has been fixed, and the debtor's attorney will now be automatically unterminated during the Copy Case process.

Case Note Event (WO 5725) [Courtroom Services]

The Case Note event has been updated to add a new radio button for CRDs: "Issue Notice of Availability of Exhibits".
