

## **RSS Feeds (WO 6008) [All Users]**

The Court's RSS Feed has been updated so all docket entries will be available for outside users.

---

## **Certificate of Service Events (WO 5875) [All Users]**

A message has been added to all events where filers are asked to enter a certificate of service date, which is used to calculate an objection or response due date. The purpose of the message is to cut down on incorrectly calculated deadlines based on incorrect certificate of service dates. The new message reads: "Enter the date of service as shown on the PDF. If more than one date of service occurred, enter the later date."

---

## **Case Processing Error re: Conflicts (WO 5917) [All Users]**

The Judge/Trustee Assignment (JTA) Program includes a conflict option where any pre-existing conflicts between a judge and/or trustee and/or an attorney can be set up. The conflict option was causing the JTA program to fail in divisions where only one judge is serving. The problem has been resolved and any attorney on the conflict list should now be able to file new petitions without issue.

---

## **Adversary Flags and Bankruptcy Dockets (WO 5968) [Court Users]**

The function that copies adversary flags to bankruptcy dockets has been fine-tuned to eliminate unnecessary flags from spreading. The SUMMONS flag and the USParty flag will no longer be copied to bankruptcy dockets, although any flag set in the adversary that deals with deferred fees or discharge issues will continue to spread.

---

## **Objection Notice for Applications for Compensation (WO 6029) [Court Users]**

When the Objection Notice form (SF00100) was updated last month, the fees and expenses requested on an application for compensation were combined into one amount on the form. The form has been updated and fees and expenses will now be displayed separately. Additionally, a blank text box will be available if more information is needed on the form.

---

## **Order on Motion to Sell (WO 6035) [Court Users]**

The Order on Motion to Sell event pulls in docket text from the motion event, including the notice and certificate of service information. The order event has been updated to remove the notice and certificate of service information from docket text.
