

Objection and Response Events (WO 5996) [All Users]

The Objection, Response, and Objection to Motion to Modify Chapter 13 Plan events have been updated so they may only be related to pending documents. If a document has been terminated (e.g., amended, withdrawn, ruled on, etc.), it will not be available for relating when an objection or response is filed.

Declaration to Schedules Deadline (WO 6040) [Court Users]

The Declaration to Schedules deadline will be set automatically whenever a petition is filed without all the required schedules. The deadline, which was moved from the regular deficiency list to the court user deficiency list, will not display in docket text, but will print on the petition deficiency notice.
