

Objections to Notices of Payment Change (WO 6076) [All Users]

The Objection event has been updated to allow filers to relate the event to Notices of Payment Change. Filers can continue to use the Motion for Determination of Fees, Expenses, or Charges to object to payment changes, also.

Form Updates re: U.S. Trustee (WO 4811) [Court Users]

All forms have been updated to ensure that the U.S. Trustee and attorneys who represent the U.S. Trustee will display in the recipient list so the attorneys can be selected when a notice is directed to the U.S. Trustee.

Amended Motions re: Terminated Deadlines (WO 6032) [Court Users]

The dispatch that controls motion events has been updated as follows: 1) for events that require the filing party to distribute a notice, the original objection deadline is only terminated upon filing of an amended motion when the filer indicates that an amended notice is also being filed; and 2) for events that require the Court to distribute a notice, the original objection deadline is always terminated upon filing of an amended motion.

Wage Assignment Orders re: Batch Order Upload (WO 6089) [Court Users]

Wage Assignment Orders uploaded through Single Order Upload are routed directly to the Signed Order Report for processing, but orders uploaded through Batch Order Upload (an option only available to trustees) were not routed correctly. The program has been fixed and Batch Order Upload works the same as Single Order Upload.

Uploadable Conversion Order (WO 6095) [Court Users]

The uploadable Conversion Order (e003480) was modified slightly to integrate a required document into the lead-in paragraph if only one document is required. If multiple documents are required, the requirements are listed in a numbered list.
