

Substitution of Counsel for Large Volume of Cases (WO 6102) [All Users]

If a law firm or attorney would like court help with substituting attorney appearances in a large number of cases, a miscellaneous proceeding may be filed. Once an order to substitute attorneys is entered in that proceeding, the court will run a program to auto-docket the order in all affected cases and to substitute one attorney for another. Contact the Clerk's office for guidance if the need for this tool arises.

Order Requesting Transcript (WO 6071) [Court Users]

Previously, when a judge wanted to request a transcript, an email was sent to Financial. A more formal request process is being implemented, and an Order Requesting Transcript is now available for use. An email is automatically sent to Financial when the order is docketed.

Reopening Orders (WO 3221, WO 5608) [Court Users]

The five uploadable reopening orders have been combined into one form with radio button options to set a due date or appoint a trustee. The language regarding the appointment of a trustee has been updated to match Fed.R.Bankr.P. 5010.
