

## **Reports of Possible Assets and Orders in No Asset Case (WO 4546) [Trustees]**

If an Order in No Asset Case (ONAC) has been entered, the chapter 7 trustee cannot file a Report of Possible Assets unless relief from the ONAC has been sought and granted. The Report of Possible Assets event has been updated to stop trustees from filing in this situation.

---

## **Amended Chapter 13 Plan Distribution (WO 6160) [All Users]**

Upon the filing of a fourth plan, the debtor becomes responsible for distributing the amended plan along with a court-prepared notice. Some attorneys have been distributing the amended plan without waiting for the court to prepare the notice. The Amended Plan event has been updated to add a warning message for attorneys asking that the amended plan not be distributed until the court-prepared notice is docketed. The documents must be distributed together.

---

## **Order Granting Relief from Dismissal and Trustee Reappointment (WO 6121) [Court Users]**

This uploadable order has been updated to correctly process trustee reappointments on chapter 7 cases. When an Order in No Asset Case (ONAC) is entered, the trustee is discharged from their duties and should not be reappointed on a dismissed case being reinstated. A new ONAC status will be used to determine when the trustee reappointment language should be included on the Order Granting Relief from Dismissal. If the ONAC status is pending, the trustee will not be reappointed; if the ONAC status is not set or has been terminated, the trustee will be reappointed.

---

## **Letter/Correspondence Event (WO 6168) [Court Users]**

The Letter/Correspondence event has been updated to add a field for the filing party. Moving the event to a court-user menu prevents filers from selecting the filing party in the usual manner.
