

Centralized Server Migration (WO 6159) [All Users]

The Court's ECF databases are being moved to an off-site server maintained by the Administrative Office. ECF will be unavailable during the migration, which starts at 8:00 p.m. EST, Friday, December 12.

Claims Upload (WO 5878) [All Users, Internal Revenue Service]

A Claims Upload process is now available for auto-filing multiple claims.

Motion to Restrict Public Access (WO 6179) [All Users]

This event has been updated so the motion can be related to either an entry on the docket or to a claim. The \$25.00 redaction fee has also been added to the event.

Set UST Flag (WO 6210) [US Trustee]

The U.S. Trustee asked that PDF files be sent when these events are docketed: Motion for Authority, Order on Motion for Authority, Order on Application to Employ.

Financial Management Notice re: Bug Fix (WO 6202) [Court Users]

This notice is auto-issued to chapter 7 and 13 debtors if they fail to timely file their Personal Financial Management Certificate. On a recent case the notice was issued in error, and the problem was related to how the certificate was filed. There are two events available for filing the certificate, and events that set the auto-noticing status were not looking for both events. The auto-noticing status is now only set if neither of the two certificate events has been docketed.
