

Fees and Amended Motions (WO 6245) [All Users]

Filing fees are not usually required when an amended motion is filed, but users often pay the filing fee for an amended motion and then request a refund. To cut down on the need for refunds, two of the most commonly amended motion events – Motion for Relief from Stay and Motion to Sell – have been updated to include a statement that users should contact the Court's NoFee email address if they do not owe a fee for an amended motion.

PDF Headers and Records on Appeal (WO 6256) [Court Users]

The Record on Appeal option, used to create the record transmitted to District Court for an appeal, has been updated to eliminate PDF headers. Previously, there was no way to turn off the PDF headers which caused confusion when the documents were docketed in District Court.
