The link to the Converting a Case Procedure has changed. The conversion events have been updated and now use the correct link.

Logic Error (WO 6403) [Court Users]

While reviewing events, a logic error in 5 events was found. The events have been updated.

IsValue and IsVariable Functions (WO 2088) [Court Users]

The locally developed IsVal and IsVar functions are being merged with the national IsValue and IsVariable functions, and small groups of updated events are being periodically moved to LIVE. Only order events are going LIVE this weekend.
