

Chapter 13 Trustee's Annual Report (WO 6494) [Chapter 13 Trustees]

A new Chapter 13 Trustee's Annual Report event is now available on both the Trustee/U.S. Trustee and Trustee's Batch Filings menus. The only requirement is that a PDF file be uploaded.

Final Installment Fee Payments (WO 6495) [Court Users]

The FeeDueINST flag is currently removed when an attorney docketed the Installment Fee Payment event and indicates that the final payment is being made. Recently, an attorney docketed the event but failed to pay the fee and a Discharge of Debtor was auto-issued in error. To prevent this problem from occurring in the future, the FeeDueINST flag will be removed upon payment of the final installment, rather than when the fee is incurred.

Notice of Incomplete Filing re: Failure to Pay Fees (WO 6458) [Court Users]

When an outside filer fails to pay incurred fees by the end of the day, a Notice of Incomplete Filing is issued. The deadline set by that notice will now be auto-terminated upon payment of the fees, rather than requiring case managers to manually terminate the deadline.

Notice of Reinstated Discharge Form (WO 6443) [Court Users]

This form has been updated to work correctly when an order reinstating the discharge is entered in either the bankruptcy case or a related adversary proceeding. Previously, the form only worked with adversary proceedings.

Modifying the Security of a Claim (WO 6435) [Court Users]

A new Attached Date column has been added to the screen when a user modifies the security of a claim. This new column will help case managers determine which attachments need to be restricted when an order restricting documents is entered.
