

Pending Dismissal for Failure to Pay Installment Fees (WO 6434) [All Users]

A Notice of Pending Dismissal will be automatically issued once the last date to pay filing fees has expired. Debtors will have 14 days to either pay the fee or request a hearing.

Revoked Discharges re: Docket Text Update (WO 6455) [All Users]

When a discharge is revoked, the following text will be added to the Discharge of Debtor(s) docket entry: A copy of this discharge can only be obtained from the Clerk's Office with a court order.

Amended Notices (WO 6496) [Court Users]

The Notice of Deficient Filing (Miscellaneous), the Objection Notice, and the Objection Notice with Hearing Opportunity events and forms have been updated to allow "Amended" to be added to the title when appropriate. The Notice of Possible Asset event has been updated to rework the amendment question.

Paper Documents Filed by Attorneys (WO 6274) [Court Users]

Attorneys must file documents electronically, but if they do file a paper document, a letter is issued to the attorney informing them of the electronic filing requirement. If an attorney continues to file on paper, a show cause hearing could be scheduled. A new letter event and form have been created, and the show cause SDO has been updated to handle hearings on paper filings.

Skip Block Scheduling Link for Court Users (WO 6508) [Court Users]

The Objection and Response events have been updated to skip the Block Scheduling Link when documents are docketed by case managers, who don't schedule hearings.

Amended Motion Terminated Related Entries in Error (WO 6207) [Court Users]

When an attorney amended two separate motions, which were both related back to the same entry, one of the motions was terminated, the related deadlines were terminated, and blue text appeared on all related entries – all in error. Programming and event changes have been made and all of the errors have been resolved.

Check Boxes on Chapter 11 Filings Unchecked in Error (WO 6519) [Statistics]

When a chapter 11 petition was amended, certain checkboxes important for statistical purposes were being unchecked in error behind the scenes. The problem has been resolved, and checkboxes remain checked until unchecked by a user.
