

## **Rescissions of Reaffirmation Agreements (WO 6567) [All Users]**

The Rescission of Reaffirmation Agreement event can be related to more than one entry, and each entry should display the disposition; i.e., blue text is added to the reaffirmation agreement entries showing that they are rescinded. A recent programming change restricted blue text dispositions to just one related entry, but that change has been reversed and all rescinded entries now show dispositions correctly.

## **Judge/Trustee Assignment Program Changes (WO 6430) [341 Calendaring Clerk]**

This program has been updated to allow the 341 calendaring clerk more flexibility on when future 341 meeting dates can be added without affecting how trustees are assigned to cases. Other changes include a more detailed report to monitor cases lacking a 341 meeting notice and auto-selection of a new 341 meeting date if the noticing deadline for the original 341 meeting date has expired.

---

## **Installment Fee Deadlines (WO 6572) [Court Users]**

When the Notice of Pending Dismissal of Case for Failure to Pay Filing Fee process went into effect, a new installment fee deadline was created, but the deadline was not set up to be auto-terminated if the fee was paid in full. The installment fee payment events have been updated so that the new deadline is auto-terminated upon full payment. This change will allow eligible installment fee cases to be processed by the auto-closing program.
